Brief Report of the Sub-Study Group on Round Dances

2024

The substudy group on Round dances – nineteenth-century derived couple dances is planning a meeting in Vienna in November/December 2024. The main topic will be *Couple of turning techniques before the waltz*.

Members of the substudy group on Round dances – nineteenth-century derived couple dances.

At the meeting of our group in Ízmir, we decided to call a meeting in Vienna in the late autumn. My proposal to make the main theme of the meeting *Couple of turning techniques before the waltz*, was accepted. I am about to produce a video where I suggest techniques found in European traditional dance that I think might be older than the waltz, which I will distribute to the participants to give a structure to the meeting,

The meeting will take place 13-15 December, arriving Friday evening or Saturday morning, and the start of the meeting at 11:00 am. The end of the meeting will be Sunday at 13:00. There was a very clear majority on these dates rather than on those in November.

Our member Else Schmidt has graciously agreed to host us

15 people at the preliminary participatory list for onsite Vienna.
